The research group led by Daniele Agostini in the Department of Mathematics at the University of Tübingen is offering a

Research Position as a PhD Student (m/f/d; E 13 TV-L, 75 %)

in Algebraic Geometry, starting **April 1st, 2024** or at a later date to be negotiated by the successful candidate. The appointment is limited to 3 years.

The position is part of the joint ANR-DFG Project "Positivity on K-trivial varieties" so that the successful applicant will have the opportunity, and is expected, to take part in joint activities with other members of the project in France and Germany. Furthermore, the candidate is expected to participate in continuous scientific exchange with the other members of the group in Tübingen, as well as in relevant scientific seminars and events.

Applicants are required to have an M.Sc. or equivalent degree in Mathematics.

The University of Tübingen is committed to equal opportunity, diversity, and inclusion. Female candidates, in particular, are explicitly invited to apply. Applications from equally qualified candidates with disabilities will be given preference. The employment is carried out by the central administration of the University of Tübingen.

Please send your application with the usual documents (curriculum vitae, transcript of records, cover letter) by email to daniele.agostini@uni-tuebingen.de. In addition, please arrange for two letters of recommendation to be sent by email to the same address.

We will start reviewing applications on **January 5th, 2024** until the position will be filled. We look forward to receiving your application. Please feel free to contact Daniele Agostini via the above email address in case you have any questions about the position, the selection process, or the goals of the envisioned research project.
